THE PROGRAMME

An online, high-quality dynamic Leadership Development programme (modular mini-MBA style), created especially for Alliott Global Alliance's members. The focus is on leadership skills and behaviours, such as strategy, communication, collaboration, influence, stakeholder management, organizational culture, innovation and commercial mindset. It's developed and delivered by international leadership experts Joanna Keeling and Elisabet Vinberg Hearn (bios on website).

WHO IT'S FOR

Team managers and future firm leaders (4+ years post qualification experience) who want to further develop their leadership skills and unique leadership style, so that they are ready to meet the challenges and opportunities of the future. Continuous learning is a must in a world of fast-paced change – and we are asking more and more of our leaders to help us navigate this pace and change.

This programme is for those who need to engage with and make an impact with all of their stakeholders, and who know they need to maximise their impact as leaders.

HOW IT WORKS

The programme will run from end of September 2021 to May 2022, with weekly communication and curated contents (videos, articles etc), monthly workshops and group discussion/collaboration. There will also be an opportunity for mentoring as well as optional individual executive coaching (additional cost). In between the live workshops, ongoing communication and participation will take place via email, a closed LinkedIn group and file sharing platform.
